Profile:

The firm of Julie Ericson Gereda Architect/RAS was established in November of 2002. The firm is a Sole Proprietorship with more than 25 years of experience in the field of Architecture, Accessibility, and Architectural Quality Control and Construction Administration. The firm is qualified to provide the required Plan Review and Inspection services to satisfy state accessibility requirements, accessibility consulting as related to TAS and ADA, traditional architectural design services, construction administration, and quality control consulting services. The small firm approach offers clients an accountable, economic option. Plan reviews for code compliance are more thoroughly completed so that the chance of revealing a problem during permitting or inspection after construction is greatly reduced. Non-Compliant situations after construction can be a substantial cost.
